GARYANZA TRAGEDY

The Dying Constable Removed to His Home.

General Sorrow Over His Haples Fate.

Inquest on the Body of the Demented Murderer.

A Concurrence of Testimony as to the Pursuit and How the Fugitive Was Brought Down-The Wounded Constable.

The little town of Garvanza is in a state of mourning over the sad tragedy of Sunday. Yesterday afternoon, at 8 o'clock, Dr. W. L. McAllister, the physician in charge of the dying Con-stable, called at the Lightner house and gave directions for his removal to his home. A dozen men carried the and gave directions for his removal to his home. A dozen men carried the officer on a stretcher, and the fresh air seemed to revive him somewhat. At 5 o'clock last evening the man lay dying, not yet having regained consciousness since the fatal ball entered the temple. The prospects of recovery are beyond the doubtful, and death is likely to result at any minute. At the likely to result at any minute. At the house the helpless man was viewed by many of his neighbors, who seemed to think that where there is life there is still hope for his recovery. While all this was transpiring a far different scene was being enacted in the South Pasadena Hotel. There a number of curious people wars seen number of curious people were seen walking about near the hotel, and occasionally stepping in to see the dead murderer.

THE INQUEST. The inquestoon B. G. Sprague, who died at 4 o'clock yesterday morning,

The inquestion B. G. Sprague, who died at 4 o'clock yesterday morning, was conducted in the waiting-room of the South Pasadena Hotel at 1:30 o'clock yesterday afternoon by Coroner Meredith. The jury, consisting of S. P. Harris, O. R. Dougherty, E. E. Borden, T. E. Edwards, Charles Packard and F. H. Howe, viewed the remains, which lie covered in the billiard hall of the hotel, and a few minutes later returned to take their seats to hear testimony.

Dr. W. L. McAllister, who was called down from Pasadena to see the deceased, said: "When I arrived at 5 o'clock yesterday afternoon, deceased was suffering greatly from the effect of four shots. The fatal shot entered the body near the twelfth rib on the right side, passing through the liver and emerging from the body in the mediastinum, two inches above the lower portion of the breastbone. This wound produced death. The body of the deceased was wall nourished. In reply to a question from one of the jury, witness further stated that the dead man was subject to epileptic fits. This he had learned from a conversation with him one day at his home in Garvanza.

The jury was then given a recess,

Garvanza.

The jury was then given a recess, awaiting the arrival of the District Attorney, who was reported on the

way.

At 2 o'clock the testimony was resumed, and W. F. D. Jones was called and said: "I am a newspaper man by profession and live at Garvanza. I assisted the Constable in trying to arrest Sprague. I saw the Constable shot down. The deceased shot at Jack wagener, Mr. Furdham and myself.
I fired at him four, times. He fired at
me about 10 times, twice while I was
struggling in the water. I afterward
ran away."

center of his breast. He said: "I'm done for; you've killed me." Turned him over. Saw several small-shot wounds, made by No. 6 shot. There were 50 men after him; six displayed weapons. Saw Patton point his rifle at deceased before he fell and heard the report. Brady and Darcy took from deceased's person a leather pecketbook, buckskin purse, box of 50 cartridges and a certificate of deposit on a bank in Oakland. Brady and I opened the pocketbook and found \$10, also a wad of manuscript paper, on which was scribbled disjointed sentences, and a roll of dry bread.

E. Peters testified: Am Constable at Pasadena. I saw a man running, asked the cause and joined in the pursuit. Came up with the crowd and authorized them to fire at deceased. Said, "Shoot him; any way to catch him." Two men in a buggy fired and brought him down. Sprague said he did not regret anything he had done.

Mr. Patton then testified relating to the circumstances of the shooting, which was mainly as the preceding.

This virtually ended the testimony, and at 5 o'clock the jury retired, returning a few min utes later with the following verdict:

"We find that the deceased came to his death by a rifle shot, fired by some one, who was pursuing him as a criminal by authority of the Constable, but who it was that fired the fatal shot does not appear to the jury."

WHERE HE BOUGHT THE CARTRIDGES.

This sad affray has been the cause of a great deal of excitement, and

This sad affray has been the cause of a great deal of excitement, and when things had somewhat cooled down, a Times reporter started out to investigate. Sprague, the deceased, was in Pasadena Sunday, as the following letter from an acquaintance of his will show:

his will show:

"He came up here about 11 a.m. Met me by accident, and told me how he had got into a scrape; said some persons were stealing his wood, and had got into a row with them and knocked a girl down. That they were going to arrest him, and he wanted to get some cartridges.

THE COUNCIL.

CITY ATTORNEY M'FARLAND REPORTS ON WATER RATES,

And the Council Re-adopts the Schedule of Last Year-Damage by the Elevated Viaducts-The Wost Sewer Company's Bill Knocked Out.

The City Council met in regular session yesterday morning, President Kuhrts in the chair, and the following members present: Barrett, Cohn, Earl, Ford, Hanley, McNally, Moriarty, Shafer, Sinsabaugh, Threlkeld and Wil-

Clerk Stiles having read the minutes of the last meeting in his usual leis-urely manner, and the same having been adopted, the business of the day was commenced in earnest by the reading of the Mayor's refusal to sign the resolution providing that Railroad avenue from the north city limits to the Arroyo Seco be graded, graveled and curbed, because the property-owners protested that they are unable to sustain the heavy expense entailed by such action. After some discussion, on motion of Capt. Barrett, the May-or's veto was sustained, and the matter ordered to be reconsidered.

WATER RATES. The special business of the Water Company next came up, Capt. Barrett moving that, as the people seemed to be perfectly satisfied with the rates as they were last year, and no complaints they were last year, and no complaints having been made, they should remain as they are at present. The City Attorney advised the Council, under the circumstances, to make an ordinance fixing the rates, and presented his written opinion as follows:

"I have made a careful examination of the question of the right of the City Council to establish water rates and fix the arresult of compensation for water.

the amount of compensation for water to be furnished for any person, company or corporation for domestic and private purposes and for other uses, in the city of Los Angeles, and would respectfully report. spectfully report:

FINDINGS. First-There is no question but what the Council has that power as to all persons or corporations other than the Los Angeles City Water Company, provided that the rate is not an unrea-

Los Angeles City Water Company, provided that the rate is not an unreasonable one.

Second—The Los Angeles City Water Company is the successor in interest of all the rights acquired by John S. Griffin, Prudent Beaudry and Solomon Lazard, under a contract entered into with the city of Los Angeles, on the 20th day of July, 1863, in which it was provided that the Mayor and Common Council of said city should have the right to regulate the water rate to be charged by said parties, provided that they should not so reduce said water rates, or fix the price thereof, to be less than the prices then charged. The question I understand you now desire an opinion upon is whether you have the right to fix the water rate lower than the price then charged. The authorities are not clear upon this proposition, and a great deal can be said upon both sides of the question. I am of the opinion, however, that you have that right, and that you may fix the rates for water at a lower rate than that charged by said company on July 20, 1868, provided that the rate so fixed shall be a reasonable one, in view of the necessities of the public and the requirements of the water company. This report was adopted and ordered spread upon the minutes, and on motion of Dr. Sinsabaugh the City Attorney was instructed to amend the ordinance of last February, fixing the water rates, to correspond with those of last year.

February, fixing the water rates, to correspond with those of last year. VIADUCT DAMAGES. The report of the special committee to whom the injunction suits of Mrs. L. M. Bigelow and G. H. Shatto were L. M. Bigelow and G. H. Shatto were referred was read, recommending that an arbitration committee of three men be agreed upon to assess the damages sustained to their property by the erection of the First-street viaduct. They suggested that the city appoint one, the property-owners! another, and those two owners! another, and those two appoint the third; or, if this be not agreed upon, that Judge Cheney, before whom the matter is pending, should appoint the third. Furthermore, as the work is contracted for and must be finished within a certain time, that the Court instruct these commissioners to examine witnesses in the matter so as to obtain a speedy and fair adjustment.

fair adjustment.

This report was adopted unanimously, and on motion of Capt. Barrett Mr. Cohn was appointed as the arbitrator for the Council.

Mr. Cohn at first, however, wanted to appoint W. H. Workman, but as it was shown that he was a propertyowner, and therefore an interested party, his name was withdrawn.

In the matter of Th. Hayes against the Downey-avenue viaduct the recommendation of the special committee that \$1000 be considered a fair recompense for the damages sustained, and that the City Attorney be instructed to draw up necessary papers for Mr. draw up necessary papers for Mr. Hayes to sign was adopted without a dissenting vote. SALARIES OF UNCLE JOHN'S DEPUTIES

City Assessor John Fischer asked that the salaries of his chief deputies, G. Hull and Sam Prager, be increased to \$150 a month, both men having had five years' experience, and being deserving of an increase. Capt. Barrett moved that the City Assessor be allowed \$100 per month for extra work to be used at his own discretion, but this met with a strong objection from Mr. Cohn who refused to submit to any such way of getting round the ordinance fixing the salaries of deputies. The men had accepted their positions, at the salaries then fixed and ought to remain satisfied. The matter was finally shelved by being referred to the incoming Council for its consideration. REPORTS.

The City Assessor presented his report of personal property taxes collected up to March 9th, showing a balance of \$1202.15 and up to March 16th with a balance of \$3087.51. Referred to Finance Committee.

The report of the Finance Committee with the following recommendations was adopted as read: Recommended that the City Auditor's balance for week ending March 9th, the trial balance sheet for February, 1889, and Justice Austin's report for the same month be filed.

Recommended that N. P. Campbell be allowed the sum of \$101.03 for double and erroneous assessment of property purchased at tax sale 1887-'S, and warrant be ordered drawn upon 1887-'S tax fund for said amount, and that R. A. Lock receive \$16.70 from same fund for same purpose.

Recommended that Mrs. E. A. Brink be permitted to redeem lot 83, First division of Hiscock & Smith's addition,

which was sold for taxes, 1888-'9, on payment of tax and legal penalty.

The bills of H. T. McCrabbe for 1875.04 for grading Hellman and Lecouvreur streets, in front of the schoolhouse, and Hilliard W. Lewis for janitorship of Justice Lockwood's courroom were reported back without recommendation.

DISALLOWED.

The bills of J. W. Reese, Health Officer; J. W. Drown, Street Superintendent, and T. Cooney, Chief of Police, for ent, and T. Cooney, Chief of Police, for \$56.95, \$100 and \$32.56 respectively, for salaries due since January 23, 1889, in addition to the excesses of salaries already drawn, were disallowed for the reason that full compensation for services of city officers is determined by the resolution passed by the Council in December, 1888, and that said officers have already received their full pay, as provided by said resolution, as it became due.

The company offers to build a new conduit, but wants a contract that when the work is done it will be accepted, and the company will be relieved from further liability in connection with the matter. It was ordered that the recommendation be carried out.

The report of the Gas Committee was presented, recommending that a 3000-candle power must be erected at the intersection of Olive and Courthouse street, and also one at the corner of Inman street and Columbus avenue. The report was adopted.

The ordinance regulating water rates for the ensuing year was then read.

Mr. Barrett moved that the ordinance be adopted, which prevailed by a vote of 10 to 2, Cohn and Ford voting in the negative.

THE BOARD OF PUBLIC WORKS, which held a meeting during the morning, presented its report, which was adopted, as follows:

In the matter of bids for storm drain on Second street, between Fort and Olive; recommended that all bids be rejected, and the Clerk instructed to readwertise for bids, giving dimensions of pipe needed.

On petition of property-owners on Hill street, between Pacheco and Pico streets, to do their own grading, it was no right or title in this land. Mr. Barrett said he could not see where the city got anything; it was all on the other side. City Attorney McFarland insisted that the city had no title to the land; of this he was certain. Attorney Smith then made a statement, saying that Mr. Kuhrts was in error, and that Judge Henry Tr. Lee had made the same report as that submitted by the present City Attorney. The debate continued at great leastin, after which Mr. Threlkeld moved that the report of the committee be adopted and the deeds given, which was seconded by Mr. Wilson. Mr. Ford moved that the matter be laid on the table. Mr. Sinsabaugh said he hoped that it would not be considered that the Council had given away 90 acres of land. Mr. Cohn said be would state boldly that if the Council voted to give away this land, they would be voting for the biggest steal that had ever been perpetrated. Dr. Sinsabaugh said that he would vote for this measure, but he wanted it understrood that he was not voting for any steal, or that he was voting to give away anything. The roll-call was then proceeded with, and had proceeded to Mr. Threlkeld's name, when that gentleman demanded the right to explain his vote, which he did, and voted for the report. Mr. Shafer asked to be excused, and Mr. Wilson voted in the affirmative, The motion was lost by a vote of 8 to 4, when Mr. Wilson changed his vote, and gave notice that he would call up the matter for reconsideration next Thursday.

Mr. Barrett moved that the Street Superintendent be instructed to accept Hoff street from Walnut to Water, and the motion was adopted on condition that the contractor hold the city free from all loss by reason of this action.

A Dividend
Is a refreshing item just now, when very many in the community are wanting money pretty badly, and we are glad to learn that the Simi Land and Water Company has been able to set a good example to the other land companies in Los Angeles. One dollar per share, or a total of \$6330 will be paid over to the stockholders April 1st, and as the company still holds a large amount of well secured notes and mortgages, and has nearly \$90,000 acres of unsold land all paid for, we hope the dividends will come often. Stock in this company will be at a premium.—

The members-elect of the new City Council held another caucus in Mayor Hazard's office last night, at which all were present. Mr. Hazard was absent at the St. Patrick's day celebration, and took no part in the deliberations. President-elect Frankenfield pre-

City Attorney McFarland was asked to appear before the caucus and enlighten the members as to what they
could do in the matter of police judges.

Mr. McFarland told them that, as
they were especially provided for by
the charter, and their dutles defined,
there was nothing left for them to do
but to go ahead and make the appointments.

but to go ahead and make the appointments.

The City Attorney's opinion was then asked in regard to the existing city ordinances, and this phase of the situation was discussed at some length. This is a very important matter, as under the new charter all existing ordinances are null and void, and it is necessary to have something to go on.

Mr. McFarland was then asked to retire and the caucus proceeded to discuss the matter, but did not arrive at any definite conclusion.

The various commissions, as at present decided on, were brought up, and it developed that there was considerable opposition to them in certain quarters. The members were very close-mouthed about this feature of the meeting, but, from what was heard after the adjournment, it is certain that the declination of Mr. Johnson as Police Commissioner was discussed. This declination is offered in the event that certain changes are not made, and only one or two favored accepting it. The others, however, were strongly in favor of keeping Mr. Johnson, even if the commission had to be reorganized, as his place would be very hard to fill. There was considerable talk over this proposition, but an adjournment was had before any definite action was taken.

In Justice Savage's Court yesterday
the charge of malicious mischief preferred by Mrs. Margaret Wright against
William Watson was dismissed after the hearing of the evidence, as it was entirely insufficient to warrant his con-viction for the offense. "Old Man" viotion for the offense. "Old Man" Watson, as he is familiarly termed, is perhaps better known to the court officials than any other person who has appeared in the local Justices' courts during the past six months. The old man claims that he is the victim of a conspiracy to deprive him of his liberty; and though no reflections can be cast upon anyone of the many persons who have within the past half year caused his arrest and subsequent incarceration in default of bail while awaising trial, it must certainly be connected as a strange coincidence that only once in 10 times has he been convicted of the offense he was charged with having committed. Only a short time ago no less than four cases against him followed at brief intervals in Justice King's court, each complaint being for a different crime. Then he was arrested on a trumped-up charge of stealing a horse at The Palms, and after about 10 days' incarceration in the County Jail he was again released. The number of cases in which he has figured as the defendant, only to be discharged when he came up for trial, ought surely to cause the District Attorney to make a searching investigation as to the facts before issuing a complaint on the bare assertion of some person who may believe him capable of committing every crime known to the law. It cannot be gainsaid, at any rate, that a good deal of money might have been still in the county treasury, which has been expended on the enforced traveling and other incidental expenses in connection with the old man's eventful career, had a little more judicious inquiry been made before issuing the complaints.

One of them, the wife of shattered. One of them, the wife of José Delcamon Bialobos, on her return from the house of her neighbor, informed her husband of the turn of events, and evidently gave him her side of the story only, for her spouse got worked up to such a pitch by her recital that he at once started out to the scene of the conflict. This was the house of the Señora Caterina Barrajas. That Señor Bialobos did not succeed in his mission may be gathered from the fact that he was arrested by Deputy Constable Vignes on a warrant from Justice Lockwood's court charging him with having disturbed the peace of his wife's quondam friend and now ruthless enemy.

After arraignment he was allowed to depart on his ewn recognizances by the Justice until the day of his trial, but whether or not the matter will remain in abeyance between the parties until that time is somewhat open to question.

WILD GOOSE CHASE.

The Detectives Search a House on a False Pointer.

The able detective force were led a lively wild goose chase yesterday, in following up a "pointer" furnished by Detective Murphy of the East Side. Several days ago Murphy arrested a man named Hendrickson on a charge of having stolen a clock from the East Side school. The case came to trial and Hendrickson was discharged, proving a clear alibi, and showing that he was not within 12 miles of the place when the clock was stolen. Shortly after this, some one told Murphy that his house was full of stolen silverware, which was duly reported at police headquarters. A woman who had been at the house also made a similar report, and as the "point" came so straight it was thought that there must be something in it. Detectives Metzler, Glass and Ruesell accordingly secured a vehicle, yesterday, and went out to the place, but

found. There was some silverware, to be sure, but it bore every evidence of having been brought out from the East with the other household effects of the family, and of course nothing was done. The detectives returned to the city last evening completely worn out and broken up with their trip. Their temper was not improved by the journey, and for a time it was dangerous to make any inquiries about Detective Murphy's great find.

The East Side Building Association and Mr. Weed.

The patience of the members of the East Side Building and Loan Association has at last been exhausted by the monkeying of their late secretary, E. A. Weed, and yesterday a delegation headed by G. When the association was organized Weed was association was organized Weed was elected secretary, and got behind some \$400 in his accounts. The history of his troubles was published in The Times when they first became public, but the matter was temporarily hushed up, on the promise of Weed that he would make his shortage good. He was given several continuances, but in each case failed to keep his promises, and Saturday night, on it being shown that nothing had been done, the directors resolved to prosecute Weed criminally. Mr. Kelly issued an order for the arrest of Weed; but up to a late hour last night he had not been taken into custody. Just how the case will come out is exceedingly problematical. Several of the members of the association say that Weed has confessed to them, but others are of the opinion that, as he has escaped so far, he will get out of the affair altogether.

WE have received a large pamphlet illustrative of the Graydon Aerial Torpedo Thrower. We have no particular use for such an article ourselves, the editorial pencil being more powerful than any dynamite gun, but if one-half of the things that are claimed for this new engine of warfare are true, then Uncle Sam ought to lay in a good stock of them.

DELUDED and disgusted prospectors are coming back from the Santa Clara "mines" quicker than they went in. The chief product of the boom, so far, appears to be \$8000 in customs duties paid to the Mexican officials at Tia By the time a majority of the prodigals have returned they will probably organize a committee to express their appreciation of the Trombone and its mining boom.

THE most liberal immigration offer of any country is certainly that of Chili, which gives free passage to all who desire to emigrate to that country, and, on arrival, board and lodging for 15 days. Farmers can also get land free and implements, etc., which they can pay on time. Chinese are barred from sharing in these advantages, a decree having been issued prohibiting the immigration of Chinese into the

THE present City Council held its last session yesterday, in the course of which it sat down very vigorously on the proposition to repay the West Sewer Company \$1500, for expenses of the investigating committee, and refused to deed land for the Montana tract, a child of the boom, located on The Council is dead. It was a little better than its predecessor. We trust the coming one will be much better than this.

THERE is a very strong opposition in Arizona to the appointment of Lewis Wolfley as Governor. Wolfley was formerly a clerk under Royal A. Johnson, at that time Su eyor-General of Arizona, who is connected with the Camerons-members of the Pennsylvania family-who own a large estate on the southern boundary of the Territory, and it is charged that Wolfley is in a land-grabbing "com-Protests on the subject have been sent on to Washington.

THE following from the New York Herald rather reverses the popular idea as to the relative value of two branches of the National Legislature: The House of Representatives has for a The House of Representatives has for a number of years past ceased to be an influential body; and that is entirely, as we believe, because it has ceased to be a debating body—a parliament. It does not develop able or great men. It is not a place in which able men desire membership. The Senate, in which debate is unlimited, in which the previous question is unknown, and in which, as Mr. Reed knows, filibustering also is unknown—the Senate is the more influential, the more effective, the abler legislative body of the two. It is so because it discusses, and thus fulfills the first function of a legislative body in a free country.

Now comes a salt trust, which is said to have been formed in Michigan, with a capital of \$25,000,000. It is announced that "the entire salt produc ing territory of the country" will be included. Salt is found over a very large area, however, and this syndicate appears to have bit off a very large piece. In the meantime, the Pan' copper syndicate is utterly demoral ized, and is likely to pull a good many big houses down in its fall. While innocent losers will be pitied, very little sympathy will be wasted on the men who have combined to raise the price of necessaries for their own gain.

A GOOD SCHEME,

It is highly important that Southern California should lose as little time as possible in advertising its resources to the world with something like our oldtime energy and enthusiasm. Perhaps one of the most effective methods to do this would be that suggested by W. E. Hughes, chairman of the Committee on Manufactures of the Chamber of Commerce, in an address de-livered before that body recently, and reported in THE TIMES of yesterday.

Mr. Hughes suggests the holding in this city, during the coming fall and winter, of a grand exposition of the industries, products and material resources of Southern California, a special building to be erected for the

purpose.

We think the idea is a good one and that, properly carried out, such an exhibition might be made self-support-ing, or nearly so. The same general principle might be adopted which pre vails at the Mechanics' Fair in San Francisco. Exhibits of raw products. such as fruits, vegetables, ores, stone and woods might be admitted free while manufacturing firms could afford to pay a moderate price for space. A snall admission fee could be charged, and a still lower rate for monthly or season tickets. Then a good orchestra might be engaged and a promenade concert given every evening. In a short time such an exhibition would become the favorite resort of the city. and one of the very first places visited

by strangers. Mr. Hughes is a gentleman of sound business sense, and has evidently the welfare of this section at heart. Let our moneyed men lend him their assistance, and we may see a big and last-ing improvement inaugurated next winter, which will land Los Angeles and Southern California on the top of the wave of prosperity.

WHAT THE FARMERS SHOULD DO.

In yesterday's TIMES, a farmer wrote in a somewhat discouraging strain regarding the market for produce raised in this neighborhood, and the pros pects for small farmers to make a living from their land. This was in the same line of thought as the communication recently noticed editorially in THE TIMES, regarding the instability of Los Angeles produce markets. It will be remembered that we suggested, the establishment of something in the nature of a coopera tive commission house on the part of farmers. J. C. Sherer writes from Verdugo to approve of this suggestion and gives some of his ideas as to the manner in which the plan should be carried out. Mr. Sherer thinks that what we need is a farmers' produce and exchange company, composed of actual farmers, the owners of small tracts or the renters of the same. Incorporate the company with, say, 1000 shares, at a par value of \$10 per share and a paid-up capital, to start with, of \$1000. It is of the greatest importance, he thinks, the number of shares and the par value be limited as above, to pre vent speculation, and the charter should distinctly prohibit watering of the stock. The stock should be non assessable, as it is reasonably safe to suppose that a sufficient number of shares could be sold after the first hundred are paid for to meet any reasonable financial emergency. The \$1000 raised on the sale of the first 100 shares should be enough to start the enterprise in a small way, and that is the only safe way for it to begin. No person should hold more than one share, and the spirit of this rule should be so strictly adhered to in disposing of stock that not more than one person in a family should be able to obtain a share. The company should obtain store-

rooms in Los Angeles, elect and hire one of its own members as manager and of its own members elect and hire such other employés as are required. As little as possible should be left to the honesty of such employés, selecting them first for their general fitness and grading their compensation so as to make it to their interest to give their best service to their employers The company's business wou be that of a commission merchant a reasonable commission being charged on all sales. No produ should be handled for any person not a stockholder, unless in the case of a demand for something which stock-holders could not supply. Lists should be kept showing the variety and quan nearly as practicable, the time it would be ready for the market. The business should be conducted on a strictly cash basis, and if managed in accordance with these rules, no reason is apparent why it should not pay

from the beginning. It should not be difficult to find 100 farmers who would each take a share of stock, upon each take a share of stock, upon which there would be valid reasons for the hope that dividends could soon be paid. At the company's store all sorts of country produce, from a quart of strawberries to a load of greasewood roots, could be sold, and the farmer would no longer be under the necessity of carting his potatoes home again after a fruitless effort to dispose of them on a market temporarily overstocked. In the course of time, such a company, if successful could build canneries and evaporators, and would no doubt have many imitators, each one of which would do more to develop the latent resources of the country than any Produce Exchange or Chamber of Commerce that Los Angeles is likely to have, useful as these bodies may possibly become.

These ideas of our correspondent appear to be very practical and feasible. The amount of money required is so very small, in comparison with the benefits to be derived, that there ought to be little trouble in finding a hundred farmers to start the ball a-rolling. Heaven helps those who help themselves, and the small farmers of this section must look to cooperation as a solution of the disadvantages which they at present labor under in finding a market for their produce.

THE appointment of an Associate Justice of the Supreme Court of New Mexico from the Territory, in the person of William H. Whiteman, and of a resident as Secretary of Arizona, will emphasize the respect shown by the President for the home-rule plank of the national platform.

Chinese Excluded from Chili. SAN FRANCISCO, March 18.—Late Chilian advices state that the Uhilian Government advices state that the Chillan Government has issued a decree prohibiting the immigration of Chinese into the republic. The Chillan Government had repeated the order to immigration agents in Europe, authorizing them to give free passage to all who desire to emigrate to Chill, where, on arrival, they will receive board and lodging for 15 day.

The Bolivian and Chillan governments are in a dispute over action taken by the latter. The Chillan Minister of Foreign Affairs, in reply to a protest from Bolivia, says Chill considers as annexed to her territory all the land south.

Cleveland Off for Cuba. New York, March 18.—Today ex-President Cleveland is 52 years old. He celebrated the event by starting on a trip for Havana, Mrs. Cleveland remains at the Victoria Hotel. Washington, March 18.—Ex-President

Cleveland arrived in this city this after-noon en route to Cuba. He was accompanded by ex-Secretary Vilasand ex-Postmaster General Dickinson. Here the party was joined by ex-Secretary Bayard, when they immediately left for St. Augustine. Ex-Secretary Fairchild will join the tourists at Tampa.

A Letter from the Pope. A Letter from the Pope.

MONTREAL, March 18.—A letter signed by Cardinal Taschereau and other prelates of the dioceses of Quebec, Montreal and Ontario was recently sent to the Pope, sympathizing with him in the loss of temporal power. In reply a letter has been received from the Pope, commenting at length on the inequality of treatment which the church receives from the Government of Italy. Leo expressed gratitude for the filial piety shown, not only by churchmen of Canada in their letter, but by ecclesiastical dignitaries in other lands.

Forming a Salt Trust. EAST SAGINAW (Mich.), March 18.—The formation of a salt trust now seems assured. The Michigan manufacturers met assured. The michigan manufacturers met here last week in secret and agreed to enter a combination. The idea is to shut down all works where fuel costs so much. There is only a narrow margin of profit, and the product of each district is to be regulated by the area it can control. The entire salt producing territory of the country will be included. The trust will have a capital of \$25.000.000.

The "Q" Road's Economy. CHICAGO, March 18 .- The Chicago, Bur-CHICAGO, March 18.—The Unicago, Eurlington and Quincy has taken off a number
of its local passenger trains in Hilmois and
Iowa, reducing this service 508 miles a day,
It has also been decided to discontinue running on Sunday trains 5 and 6, between
Chicago and Council Bluffs. These changes
are made in the interest of seconomy, the are made in the interest of economy, the company having adopted a policy of retrenchment, with a view to retrieving a portion of the losses of the past year.

Another Brewery Sold.

PORTSMOUTH (N. H.), March 18.—In an interview with Hon. Frank Jones, with reference to the reported sale of his brew-ery, he said that an absolute sale had been made, and not merely a syndicate formed to place the stock on the markéte. The price paid was \$6,300.000. A stock company has been formed, and Messrs. Jones. Cook and Sinclair have retained a large block of the securities and will continue in active management.

Played with a Pistol. HOLLISTER, March 18.—Albert Franklin and Robert Cochran, two boys aged about and Robert Coerrap, two boys aged about 14 years, were playing with a pistol this afternoon. They had removed the cartridges from the chambers, but Franklin replaced them unknown to Cochran. The latter picked up the weapon, and in a playful manner took aim t Franklin and fired. The ball entered Franklin's forehead, killing him almost instantly.

San Jose Libel Suits Jose, March 18.—The criminal libe suit against S. W. Delacy, former editor of the Times, was dismissed this morning. He has been tried twice; each time the jury disagreed. The suit was brought by A. S. Denike, a former school trustes. The civil suit pending will be tried April 22d.

A Non-partisan Ticket.

Merced, March 18.—Republicans and
Demecrats met in joint convention this
afternoon and nominated a non-partisan
ticket for offices of the city government in
case the town is incorporated at the coming
election.

A Steamer On Fire PORT JEFFERSON (N. Y.), March 18.—A steamer was seen on fire in the middle of the sound at 8 o'clock this evening. She was apparently bound west. Other steamers could be seen offering assistance.

Samuel R. Taylor, nominated as Minister to the Netherlands, is a lawyer of Minneapolis. He is 47 years of age, a native of New York State and a graduate of Columbia Collega. He went to Minneapolis and entered upon the practice of his profession, where he attained a position in the front rahk. He is highly esteemed by the people of Minnessta, and is said to be well qualified for the duties of the position.

Thomas of Maine, who is named for the Swedish mission, gets his old office back again, he having been Minister of the United States to Sweden and Norway when Cleveland became President. While Thomas was minister, a greater number of Swedes emigrated to this country than during any other similar period, and this large emigration is said to have been directly due to the efforts of Thomas. Thomas has always been a Republican, and in the political canvass resulting in Harrison's election he rendered valuable service to the party as a Swedish stump speaker.

James N. Tyner, who was today appointed Assistant Attorney General for the Postoffice Department, was born in 1826, and has been in public life for more than thirty yeary. He was a member of Congress from 1829 to 1875. President Grant appointed him Second Assistant Postmaster General and upon the resignation of Marshal Jewett, he became Postmaster General and held the office until 1881 when he resigned.

Hazen is a Pennsylvanian, who, after graduating from college, entered the Postoffice Department as a clerk. He rose through various grades to the piace of chief of the division of stamps and supplies. In 1877 he was appointed Third Assistant Postmaster-General, and in this capacity he served with ability and efficiency for ten years. When Cleveland came into office Hazen, although a Republican, was retained for two years because of his knowledge of the business that passed through his hands. The Third Assistant Postmaster-General has charge of all matters relating to the finances of the postal service, and has the letting of contracts involving the expenditure of large amounts of money.

roads which maintained the rates lost most of their export business. That of the Lake Shore road dropped from 36 per cent. to 7 per cent.

Chairman Cooley said to the managers, in part: "It is very manifest that there have been things going on here that should stop at once. We must compliment Mr. Hayes for coming forward and stating frankly just what the facts were as regards his own road. We should have been better satisfied if a like course had been taken by all the others. They ought all to do what no doubt Mr. Hayes will do, namely, endeavor to comply with the law. Here is the law, and it is not for you hereafter to say to us that there are practical obstacles in the way offcomplying with it; that you lose business by so doing it, and all that sort of thing. We are not concerned in that. We do not wish to do anything to make you lose business. At the same time, we cannot accept it as a valid excuse that if you obey the law you will thereby lose business. The time ought to be considered as gone by when a manager can come to us and say, "I named this rate and I did it regardless of the law because my competitor had done the same thing. There is no excuse for that practice. If wrong is done by one road to the injury of another the proper methods of redress is not to duplicate the wrong, but to go before the commission or a voluntary association, with a complaint of the wrong. One crime in railroad circles is no more to be excused by another than one theft is to be justified by another. Judge Cooley amounced that for certain couthern roads that had asked the hearing a ontinuance of the inverses an opinion that would affect the interests of those roads until speared unjustifiable, should not be constitued.

THE EXCLUSION ACT.

The Chinese View of the Case Set Forth in a Brief.

San Francisco, March 18.—[By the Associated Press.] The Examiner's Washington special says: Judge Hoadly filed to day with the Clerk of the Supreme Court a brief prepared by himself and James Carter in behalf of Chae Chang Ping, in the case to test the validity of the Exclusion Act. Counsel take the ground that the expulsion of appellant is an ex-post facto attainer. Especial stress is laid upon the guarantee of the United States Government that certificates authorized by the acts

pulsion of appellant is an ex-post facto attainer. Especial stress is laid upon the guarantee of the United States Government that certificates authorized by the acts of 1882 and 1884, entitled holders to recenter the United States. The brief says: "The treaty ratified in 1881 was doubtless a contract between the United States and China. While it remained binding as such upon both these high contracting parties, it was also a law of the United States. We do not claim that Chae Chan Ping has a right to enforce its stipulations or complain of their breach. Our intention is that, being a law of the United States, he took under it rights of which he cannot be deprived under subsequent legislation."

In discussing the want of power in Congress to annul the right of appellant, counsel say that, whether treated as a contract executory, a contract executed, or a vested right, whatever rights he became entitled to under the treaty and Statutes are incapable of revocation by any act of Congress during time of peace with China. Chae Chan Ping was a resident of the State of California and in legal contemplation remained a resident of San Francisco during his temporary absence from the second day of June, 1887, to the seventh day of October, 1888, merely changing his residence from a residence de jure to a residence de facto, as far as he could, the moment the steamship Beigle entered the port of San Francisco. Counsel hold that Ping is a "person" within the meaning of the law, and as such entitled to the protection to life, liberty and property afforded by the fifth and fourteenth amendments to the Constitution. Furthermore, that the exclusion or practical banihument of appellant, he being domiciled in California, is in the nature of a punishment for a supposed past offense, namely, that of having been a Chinese laborer, and that the Excussion Act is to him as an expost facto biil of attainder which is forbidien by the general wording of the Constitution, not only to citizens, but to alien residents.

IN THE SENATE.

The Samoan Conference Commissioners Promptly Confirmed.
WASHINGTON, March 18.—[By the As sociated Press.] The Senate opened with the Vice-President in the chair. The reso lution heretofore presented by Gibson for the appointment of a select committee on relations with Mexico and Central Amerlea was taken up. Gibson defended him-self against the charge that he wanted the committee appointed in order that, as chairman, he might go on a junket to Mex-

chairman, he might go on a junket to Mexico.

After considerable talk the resolution was referred to the Committee on Commerce and the Senate proceeded to executive business. When the doors were reopened, after a very short interval, the Senate proceeded to consideration of the resolution heretofore offered for the appointment of a select committee on relations of the United States with Cuba and other West India Islands. The discussion turned on the question of the dempetency of the Senate in calling an executive session to enter upon the performances of legislative functions.

Mr. Sherman said that the precedents on that point all turned not on the power of the Senate to do so, but whether it was wise to enter upon legislative question at an extraordinary session. He thought not.

After further discussion, without disposing of the question, the pending motion boing to refer the resolution to the Committee on Foreign Relations, the Senate again proceeded to consideration of executive business.

The Senate confirmed the following nom-

Among the letters just received is one from ex-President Hayes from Fremont, O. It is given below. There are also letters from Maj.-Gen. George Crook of the division of Missouri and from Gen. W. Merritt of the Department of Missouri. Gen. Crook speaks of the movement as "A charity which sectionalism can well afford to overlook and the Oorth can in this way show kindness and sympathy to a fallen foe." Ex-President Rutherford B. Hayes writes as follows:

"I thank you for the privilege of uniting with the New York Citizens' Committee in their patriotic and charitable work in behalf of the disabled and destitute soldiers of the late Confederacy. The time is plainly drawing near (if has not already come) when justice to its defenders will require the National Government to expend much larger sums than heretofore have been appropriated for the support of the men who saved it. The sacred obligation to Union soldiers must not, will not, be forzotten or neglected, especially by those who have shared in the fullest measure the prosperity which has come from the services and sacrifices of those who stood by the Government when it was imperiled. But those who fought against the Nation cannot and do not look to it for relief. Their disabled and destitute comrades are left to the generosity of their more fortunate fellow-citizens, who wisely forecast an inspiring tuture of our country. The Confederate soldiers and their descendants are to share with us and our descendants in the deatiny of America. Whatever, therefore, we their fellow-citizens, can do to renye the burdens from their shoulders and the burdens from their shoulders and the burdens from the shoulders and the burdens from the enterprise, by the go out to accept also my best wishes for its success. John Kavalek, a sailor, stated that the Captain had offered to increase his pay if he would consent to throw two worthless hands overboard. This testimony produced a decided effect on those present. Kavalek told how the Captain beat John Steiner with a stick of wood without provocation, and forced him to work when his foot was so sore he could not put it to the ground. Kavalek said the fare consisted mainly of half spoiled beans, with sometimes cabbage, meat, white potatoes and corn bread.

UNION PACIFIC.

Posing as Bankrupt, but Planning
New Lines.
NEW YORK, March 18.—[By the Associated Press.] A Boston dispatch to the
Herald says: Union Pacific affairs are in a curious shape again. There is an activity in the construction department strangely out of place in a company which has been posing as bankrupt and asking Congress for an extension of its debt. Surveying parties are out and a number of new lines are pro-jected. The most important is a direct out-let to the Pacific Coast at or near San Fran-cisco. Every man charged with the man-agement of the company for years back has, recognized the necessity of such a road and tried to secure it.

Tennessee Democrats "Change" Two
Congressional Districts.

NASHVILLE (Tenn.), March 13.—[By the
Associated Press.] The Democratic legislative caucus tonight decided to "change"
the Third and Fourth Congressional districts of this State. Two Republican counties will be taken off the Third District,
which is always very close, and will be
represented in the Fifty-First Congress by
H. Clay Evans, Republican, and added to
the Fourth, now represented by Benton McMillin, and which gives 9000 Democratic
majority. Two Democratic counties are to
be taken off the Fourth District and attached
to the Third, making the latter district
Democratic beyond question.

SIMI RANCHO!

Cheap Lands. Good Lands. Prices and Terms to Enceurage Settlers.

and Terms to Enceurage Settlers.

So much has been said and written about the high prices for ordisary farming and fruit land in Southern California that many Eastern people think that no good land can be had at less than E200 per sere in any good locality. But if you will call at the headquarters of Simi Land and Water Company you will find that you can buy well watered stock ranges at 8 to 815 per acre, and every one of these ranges contains more or less sood farming land. You can buy first-class valley lands 100 or 40 acres, for round small tracts of 10 to 40 acres, for round small tracts of 10 for dividing among their members, at 85 to 40 per acre. This company cares nothing for ordividing among their members, at 85 to 40 per acre. This company cares nothing for hooms, and asks no inflated prices for their lands. We own nearly 100,000 acres, and have a perfect and undisputed title. The object is to furnish good lands, to actual settlers, at prices within reach of any who can buy land at all, and on terms which will enable men of moderate means to acquire homes in as attractive and healthful part of Southern California. We do not claim to have the best land in the Ftate, and at present are not directly on a railroad, but expect to be beforeoling. But we do claim to offer better land and more advantages and on easier terms of payment than any other place that has been brought to our sptice. It will cost you nothing but a postat card to get detailed information about these lands. If you want a farm or a stock range write or call at 19 West First street, Loc Angeles, and ask about the Simi rand.

CONSUMPTION, Together with diseases of

THE EYE, EAR AND HEART, SUCCESSFULLY TREATED BY HILTON WILLIAMS,

M. D., M. C. P. S. O., HOLLENBECK BLOCK, Corner of Spring and Second Streets,

Consumption Can Be Cured This has been demonstrated in thousands of cases treated by DR. WILLIAMS.

With his new system of medicated inhalations, also the oxygon and compound oxygon treatment, combined with proper constitutional remedies for the liver, stomach, blood, etc.

Probably no system of practice ever adopted has been so universally successful as that introduced by Dr. Williams for the cure of Catarria, Throat Diseases, Bronchitis, Asthms and Consumption.

troduced by Dr. Williams for the cure of Catarrh. Throat Diseases, Bronchitis, Asthma and Consumption. TATARRH.

Catarrh is often revarded by the patient as a cold in the bead, and be often expresses his astonishment at his remarkable tendency to contract a fresh cold. Indeed, he deciares he is scarcely free from one cold before he takes another; and he is always exceedingly careful. It is also a matter of surprise to him that the cold always seems to settle in the head and throat.

At times many of the symptoms of Catarrh may seem to abste, and the patient is led to hope that the disease is about to wear off; but another class of symptoms soon appear, and he learns to his horror that instead of recovery from the disease it is somewhat changed in its character and has extended to the throat. A sense of weariness is sometime felt in reading, speaking or singring, hearseness at times occurs, a sensation of dryness that some foregr in the throat, or it appears that some foregr in the throat, or it appears that some foregr in the throat, or it appears that some foregr own in clearing the throat a sense or languor and fatigue, the herath lessens upon a little exertion, a short, backing cough, a peculiar sound in clearing the throat, a feeling as though there was not room enough in the chest to breathe: these and other symptoms occur after the disease has made considerable progress. Then it is a time when consumption is about to begin its dreadful work. Up to this point the progress of the disease may have been slow and the patient may, in expressing his confident hope that it will 'wear off,' declare that he has had the catarrh for years and has not seemed to become much worse, and trusta he will 'by and-by' recover. But this delusion is the grand error which has peopled our cometeries with coasumptive forms, as all forms of catarrh end finally in consumption. grain error which has peopled our cemetries with consumptive forms, as all forms of catarrh end finally in consumption.

Inhalations are applicable in all diseases of the respiratory organs, but must be prepared for each individual case as they severally re-

for each individual case as they severally require.

By the employment of proper inhalation in
the form of medicated vapor mot steam or
sorray) we are able to produce immediate and
direct action upon the direased surface in the
pharmyx and masal passages, for air will find
its way into the most remote and intricate
cavities, where it is impossible to make fluid
applications. By these means every case can
be cured.

Persons desiring treatment by this system
of practice can use the remedies at home as
well as at our office, and which will cause no
inconvenience or hindrance to business whatever.

ever.

I have seen so many of these cases
ured that i do not consider any case hopeless unless both lungs are seriously involved.
Even then the inhalations aid us in dissolving

the mucus and in contracting and healing the cavities, which nothing else can do with the same success.

The very best references from those already cured. CONSULTATION FREE. Those who desire to consult with me in regard to their cases had better call at my office for consultation and examination, but if impossible to do so, can write for a copy of my Medical Treatise, containing a list of questions. PASADENA, March 18 .- [Correspondence of THE TIMES.] J. H. Johnson, an employé of the Los Angeles Ab-stract Company, died at his home on North Los Robles avenue shortly after 1 o'clock this afternoon of a complica tion of diseases. The deceased had been in ill health for some time, and is survived by a wife and four children. He was a prominent member of the Methodist Church and the chorister of the Sunday-school. His loss will be

deeply felt.

A gentleman of Vernon avenue was seen sprinkling his lawn this morning. Evidently he believes in irrigation, notwithstanding the recent heavy downpoint.

There were 129 prisoners in the tanks at 7 o'clock last evening.

Justice Twitchell of Santa Monica yesterday sent up a bunch of six Chinamen for ten days each, for maintaining a public nuisance. The Chinamen were arrested for running a washhouse at that place, against which there is an ordinance. On there arrival here, they secured legal advice, and were taken before Judge Clarke on a writ of habeas corpus. The Judge, after hearing all the facts, released the heathens, on the ground that the commitment was defective. This is the second or third lot of Chinamen sent up from Santa Monica for this offense without one of them being held.

A FEW WORDS IN REGARD TO CLOTH-

A FRW WORDS IN REGARD TO CLOTH-ING.

We have of late worried our competitors in the clothing business. Our prices don't suit them, and they wish to convey to the public the idea that what we say is not true. We make this publication, which no other house has ever done. We warrant everything that we say, mean what we say and stick by what make this publication, which no other house has ever done. We warrant everything that we say, mean what we say and stock by what we say. If at any time we advertise an article and should you not find it exactly to the letter as advertised we will gladly refund your money. We still go further. Should you not be pleased with your puretas a bring it back and your money awaits you. This is not the first time we we walloped these loudmouthed, human owe we walloped these loudmouthed, human cowers and we'll not let up on them until we have knocked the bottom clean out of suits. Once in a coon's age we hear of a customer who has wandered away from our clover fields after a bait throws out by the clothing sharks, but is due time returns penitent and shabby a sadder but a wiser man, and declares he will nover no.never, be humburged again. We are here to protect the public and are determined to so. It has been admitted by the clothing monsters that we do the leading clothing trade. They in their own minds know full well that it is due to our honest values and right treatment and popular prices—and the prices we quote they imagine to be over cost.

Hotel del Coronado.

The bountiful rainfall of the past few days has already clothed our hills and vallers with a profusion of flowery verdure, expanded the tardy fruit buds into full-blown beauty, spreading around us a variety of exquisite odors, far surpassing the historic perrumes of the Orient. These, with the wide-spread fields of waving grain, "soon ready for the harvest," gladden the eye of the excursionist as he joyously speeds along on his way to Coronado. The lovely and ever-varying land-scape, the endless view of "ocean's wide expanse," all combine to make this, our next trip, one of the pleasantest on record, and the grand old time that all will have will follow, as a matter of course, the arrival at that queen of the Southern Pacific, the Hotel del Coronado. It will be a trip leng to be remembered, and always with pleasure. Make up your mind now and be one of the merry party to the great hotel.

BONDS FOR SALE.

We take pleasure in offering to the investing public a limited amount of the first mort-gage, 6 per cent, coupon bonds of the

Lowe Gas and Electric Co.

Funds to be used for the further extension of the Company's plant, and street mains to va-rieus parts of the oity including several large sections not now supplied with gas. The past year's business of the Company has shown its ability to supply the public with a very

Superior Quality of Gas for Both
Light and Fuel!

At such rates that all can use it, and at the
same time return satisfactory profits to the
holders of its securities. The fact that gas,
is one of the prime necessities of the people,
makes this business good even in dull times,
and hence the reason why investors generally
give proference to this class of securities.

The London Economist, in a recent number,
states that, "after a lens and careful investigation as to the best paying and safest investments presented during the past 61y cars, gas
investments bave proved the most satisfactory."

investments have proved the most satisfactory."

To remove all doubts as to the desirability of the investment. WE REFERT ON UMEROUS HOLDERS OF THE SE BERTIES ON ANGELES, together with a statement of the growth of the Company's business and its prospects for the future. Each purchaser of the present issue of bonds WILLEGIVE AS RONUS A LIBERAL STOCK INTEREST IN THE COMPANY, which, in time, is likely to become more valuable than the secured ponds themselves.

We shall be pleased to furnish all further information that may be desired. LOS ANGELES SAFE DEPOSIT AND TRUST CO.
